COMMUNICATION UNDER 37 CFR § 1.97(i)

Dear Sir:

Submitted herewith is a Supplemental Information Disclosure Statement relating to the above patent application, and a copy of the relevant reference is enclosed. An Information Disclosure Statement was submitted with the filing papers on October 18, 2006.

A Notice of Allowance for this application was mailed on February 9, 2009. During the final check of the application prior to submitting the Issue Fee, it was noted that two references had been inadvertently omitted from the earlier Information Disclosure Citation.

1. *The International Search Report and Written Opinion of the International Searching Authority*. The instant application was filed as a 35 U.S.C. § 371 U.S. national stage filing from a PCT Application, so the ISR/WOISA should have been included in the file from WIPO. Further, the search was very favorable and uncovered no references of particular relevance (i.e., “X” references).
2. *Crivello, JV and Lee, JL. Radtech Conference Proceedings, pages 432—445 (1990)*. Two references, each 14 pages long, were inadvertently labeled “DI” for purposes of the IDS, but only the other reference was actually cited on the IDC form. The reference above was uploaded to PAIR and is currently available on the website. Further, this is a cumulative reference to others that were cited in the earlier IDC.

Docket No. 0094.077A

Applicant does not believe that it is necessary to cite the references listed above on a new IDC for the reasons listed above. However, out of an abundance of caution, Applicant is alerting the USPTO to the unintentional omission of said references.

No fees are believed due for this communication.

Respectfully submitted,

Kellie S. Fredericks
